INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of Tiverton
Tiverton, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Tiverton, Rhode Island (Town) as of and for the year ended June 30, 2011, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Tiverton, Rhode Island's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "*Government Auditing Standards*" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of the Town of Tiverton, Rhode Island as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 22, 2011 on our consideration of the Town of Tiverton, Rhode Island's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 12 and 65 through 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management discussion and analysis information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual non-major fund financial statements, the budgetary comparison schedules on pages 65-76 and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis

TOWN OF TIVERTON, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2011
(Un-audited)

Our discussion and analysis of the Town of Tiverton, Rhode Island's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2011.

For the fiscal year ended June 30, 2011 the Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. See the Summary of Significant Accounting Policies in the Notes to the Financial Statements for a further explanation.

Financial Highlights

- ❖ The Town's primary governments net assets increased by \$760,836 as a result of this current year's operations. Most of this increase was attributable to the reclassification of long-term debt liabilities from an expenditure on the fund financial statements to a reduction of long-term debt on the statement of net assets. Other factors that increased expenses include depreciation expense of \$1,715,516 and an increase in the Town's pension liability of \$628,326. See page 17 of the financial statements for a more detailed explanation. On a government-wide basis the assets of the Town of Tiverton exceeded its liabilities at the close of the most recent fiscal year by \$9,467,928. Net assets of business activities decreased by \$16,592 or .04%, while net assets of Governmental Activities increased by \$777,428 or 16% before a prior period adjustment of (\$38,512).
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$47,127,709 a 3.4% decrease from the prior year, while revenues collected were \$47,888,545 a .04% increase.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$9,401,982. Over 17% of this amount \$1,660,804 is unassigned and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general fund unassigned fund balance was \$1,775,691, or 4.7% of the total general fund expenditures and transfers out for the fiscal year. The current fiscal year's revenues and transfers exceeded expenditures and transfers by \$763,642. On a budgetary basis revenues exceeded expenditures and transfers by the same amount.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

TOWN OF TIVERTON, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2011
(Un-audited)

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Assets* presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples would include uncollected taxes and earned, unused compensated absences.

Both government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's business activities include the Land Acquisition Fund and the Cafeteria Fund.

The government wide financial statements are reported on pages 13 through 14.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories-governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

TOWN OF TIVERTON, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2011
(Un-audited)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Special Revenue Unrestricted Fund, which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has two enterprise funds, the Land Acquisition Fund and the Cafeteria Fund. Both are considered to be major funds for financial statement purposes.

The basic proprietary fund financial statements are presented on pages 18 through 20.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 21 and 22.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 23 through 62.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary information is presented on pages 63 through 76.

The combining statements referred to earlier in connection with non-major governmental funds, are presented on pages 77 through 100.

Government-wide Financial Analysis

Analysis of the Town of Tiverton's Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position, and an important determinant of its ability to finance services in the future. The Town of Tiverton, governmental activities assets exceeded liabilities by \$5,702,847 as of June 30, 2011. This represents a current years' increase of \$777,428 before the prior period adjustment.

Listed below is a comparison of the current and prior fiscal years.

An additional portion of the Town's net assets, \$10,375,713 consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

Analysis of the Town of Tiverton's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2011. The Town first implemented GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments in the fiscal year June 30, 2003. Therefore, comparative data is both available and presented in the following schedules. Governmental activities increased the Town's net assets by \$777,428 for the current period, which equated to a 16% increase in the Town's governmental net assets, while business-type activities decreased the Town's net assets by \$16,592, accounting for a .04% decrease in the business-type net assets. Overall the Town's current year's net asset increase was \$760,836 which is an 8.7% increase over the prior year.

In the current fiscal year, the Town's fund financial statements ended with a net increase in the overall fund balances of \$989,314. In the statement of activities, expenditures for capital items are not recorded as expenses, but shown in the balance sheet as capital assets, with depreciation shown as an expense. This resulted in a net decrease of \$1,499,946. Bond payments are not recorded as expenditures but shown in the balance sheet as a reduction in long-term liabilities; this resulted in an increase to net assets of \$1,707,500. Other changes were due to an increase in the Town's other post employment benefits of \$160,147 and an increase in the Town's net pension obligation of \$628,326. The overall effect was an increase in the Town's Governmental net assets of \$777,428. Please see notes 8 and 9 to the financial statements for a more detailed presentation and page 17 of the financial statements.

The following page presents the Changes in Net Assets for the current year's activity.

Financial Analysis of the Town of Tiverton's Funds

Governmental Funds - The focus of the Town of Tiverton's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$9,401,982. Over 26% of this amount \$2,501,689 is unassigned and available for use within the Town's designation and fiscal policies. The remainder of the fund balance is categorized at various commitment levels as follows.

TOWN OF TIVERTON, RHODE ISLAND

Culture and recreation	623,075
<i>Unassigned:</i>	1,660,804
Total fund balances	<u><u>\$9,401,982</u></u>

Proprietary Funds - The Town of Tiverton's proprietary fund statements provide the same type of information as presented in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds are \$250,754.

General Fund Budgetary Highlights:

Overall, the Town recognized 100.17% of the FY2011 Expected Revenue. It should be noted that there were several revenue categories that ended the year on a positive note, earning more than 100% of their expected budget. Including but not limited to the Fire Rescue billing, prior year tax collections, tax interest and Municipal and Probate court fees. Our main source of revenue property tax collections, are at 96.79% of the projections, and efforts to collect remaining balances are ongoing. Although Operations Aid for Education did not meet the expectations set at the financial town meeting, School Housing Aid and out of district tuition was higher than expected. As well, building impact fees in the amount of \$98,340 were recognized in FY2011.

Notwithstanding carryovers from the previous year, overall expenses for FY2011 came in at 98.2% of the budget. All department managers demonstrated careful regard for their budgetary responsibilities, and the results are obvious. The town was able to carryover approximately \$176,669 and increase FY2012's drainage and paving accounts for ongoing street repair.

Totals	39,098,961	-	39,098,961	37,760,601	-	37,760,601

Additional information on the Town's long-term debt can be found in Note 10 of the Notes to the Financial Statements on pages 41 and 42.

The Town's general obligation bond rating as assigned by Moody's Investors Service in 2007 is A2. The State of Rhode Island imposes a limit of 3 percent of the fair value of all taxable Town property on the general obligation debt that a municipality can issue. The Town of Tiverton's limit is \$67,364,524 at year-end. The Town's outstanding general obligation debt is \$37,110,000 at year-end, which is \$30,254,524 under the State imposed limitation.

Economic Factors and Next Year's Budgets and Rates

The town's general fund budget for FY 2012 was set at \$ 44,662,368; this resulted in a property tax rate of \$15.71 per \$1000 of valuation, a \$.36 increase over the previous years' tax rate. One of the smallest tax rate increases in recent history.

Municipal expenses of \$17,725,862 include \$526,773 which is attributable to capital and non-recurring expenditures. The remaining \$26,936,506 is budgeted for Educational expenses, and includes capital expenditures of \$57,204.

As we are all aware, today's economy has created an atmosphere of economic uncertainty for many cities, towns and states. The management of the Town of Tiverton will continue to adhere to the budgetary controls in place to ensure that all town revenue is expended wisely.

<p>Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:</p>	
<p>Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$1,712,581) exceeded capital outlays (\$212,635) in the current period.</p>	(1,499,946)
<p>Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the statement of activities. Notes to Financial Statements

TOWN OF TIVERTON, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Tiverton, Rhode Island, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The government's significant accounting policies are described below.

Reporting Entity

The Town of Tiverton was founded in Massachusetts in 1694 and in Rhode Island in 1746. The Town is governed largely under the Tiverton Home Rule Charter. The Town operates under an elected Town Council, School Committee, Budget Committee, Town Clerk, and Town Treasurer form of government. The Town Council operates with assistance from a Town Administrator while the School Committee has assistance from a Superintendent of Schools. Both the Town Clerk and Town Treasurer have appropriate support staffs. The Budget Committee operates from the start of January until the annual Town Financial Meeting is held in early May. The Town provides the following services: Public Safety (police, fire, traffic safety, inspections, zoning and building), Public Works (recreation, sanitation, highways and streets, engineering and building maintenance), Education, Social Services, and General Administrative Services.

This report includes all of the funds of the Town of Tiverton. The reporting entity for the town consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14. Under GASB Statement No. 14, the financial reporting entity includes both the primary government, which is the Town of Tiverton and all of its component units. Component units are legally separate entities that meet any one of the following three tests:

Test 1- the primary government appoints the voting majority of the board of the potential component unit and

- * Is able to impose its will on the potential component unit and/or
- * Is in a relationship of financial benefit or burden with the potential component unit;

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Test 2- the potential component unit is fiscally dependent upon the primary government; or

Test 3 - the financial statements would be misleading if data from the potential component unit was not included.

The following entities were considered for classification as component units for fiscal year 2011:

- * Tiverton School System

Although the Tiverton School System meets certain criteria of the tests listed above, it is not deemed to have separate legal status apart from the Town. As a result, the financial data of these entities have been included as Special Revenue Funds within the Town's financial statements.

BASIS OF PRESENTATION

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds are reported in the statements of fiduciary net assets and changes in fiduciary net assets). The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which, is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and
- (b) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

BASIS OF PRESENTATION (continued)

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund.

GOVERNMENTAL FUND TYPES

Major Governmental Funds

General Fund - is used to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

School Unrestricted Fund – The School Unrestricted Fund is used to account for the budgeted resources devoted to financing the general operations of the school department.

PROPRIETARY FUND TYPE

This fund type accounts for operations that are organized to be self-supporting through user charges. The fund included in this category is as follows:

Enterprise Funds - are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy management control, accountability, or other purposes.

Major Enterprise Funds – The Land Acquisition Fund is used to account for the purchase of land for use by the town and the fees and the expenses associated with maintaining the land for future use. The Cafeteria Fund is used to account for the school lunch program and expenses related to providing breakfast and lunch to Tiverton students.

BASIS OF PRESENTATION (continued)

FIDUCIARY FUND TYPES

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. These funds are as follows:

Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

Pension Trust Fund - is used to account for funds that are to be used for the payment of retirement benefits to former employees. The Pension Committee oversees this fund.

Private-Purpose Trust Funds - are used to account for funds that are held by the town under various trust arrangements for the benefit of certain individuals.

BASIS OF ACCOUNTING

Measurement Focus – Government Wide Financial Statements

In the Government-Wide Financial Statements the Statement of Net Assets and Statement of Activities, the governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines, permits, and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash. In determining when to recognize intergovernmental revenues (grants and entitlements), the legal and contractual requirements of the individual programs are used as guidance. Revenues are recognized when the eligibility requirements have been met.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between fiduciary fund types. These charges have been reclassified as other receivables or other liabilities.

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services, fines, or privileges provided, and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

Measurement Focus – Fund Financial Statements

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types accounted for using a “current financial resources” measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types and Fiduciary Fund Types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net assets) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net assets.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the proprietary funds are charges for services. Operating expenses for enterprise funds include the cost of operations and maintenance, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

All Governmental Fund Types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate however, that they should not be considered “available expendable resources” since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

In applying the “susceptible to accrual” concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, amounts must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore revenues are recognized based upon the expenditures recorded.

For the other type, revenues are virtually unrestricted as to purpose of expenditure and revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the “available” criteria.

All Proprietary Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

In accordance with Government Accounting Standards Board Statement No. 20, the Town of Tiverton has elected to apply to all Proprietary Fund Types and Similar Trust Funds all applicable GASB Pronouncements, as well as the following pronouncements issued on or before November 30, 1989; FASB Statements and Interpretations, APB opinions and ARBs unless these pronouncements conflict with or contradict GASB pronouncements.

Cash Equivalents

For the purpose of the Statement of Cash Flows, the Propriety Fund Types consider all highly liquid investments with a maturity date of three months or less when purchased to be cash equivalents.

Investments

Investments are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental and Fiduciary Fund types, which are recorded at fair value. Fair value is determined wherever possible, by use of published quoted amounts, where quotes are not available, formal valuations are obtained.

When discounts or premiums are present, the Town will capitalize and amortize the amount over the period of the related investment.

Receivables

Accounts receivable are recorded in the General, Special Revenue and Enterprise funds. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Capital Assets

Capital assets in Governmental Fund type operations are accounted for using the “current financial resources” measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, curbs and gutters, streets and sidewalks, and drainage systems), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town

**TOWN OF TIVERTON, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets (retroactive to January 1, 1979) is included as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are recorded as expenditures as incurred.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives (years)</u>
Autos and information processing equipment	5
Trucks	8
Equipment, furniture and fixtures	10
Heavy equipment	25
Buildings, infrastructure, water lines and fire hydrants	40
Sewer mains and certain water assets	75-100

Bond Premiums and Debt Issuance Cost

In the Governmental Fund Financial Statements, bond premiums and debt issuance costs are treated as period costs in the year of issuance. Debt issuance costs are shown as an “expenditure” and bond premiums are reflected as an “other financing source”.

In the Government-Wide Statements, bond premiums and debt issuance costs are deferred and amortized over the term of the related debt. Bond premiums are presented as an addition to the face amount of the bonds payable whereas debt issuance costs are recorded as other assets.

Deferred Revenues

Deferred revenues represent funds received in advance of being owed or receivables, which will be collected and included in revenues of future fiscal years. In the General Fund, deferred revenues relate to property tax receivables, which were received prior to June 30th, plus delinquent balances less amounts due as of the balance sheet date and received sixty days thereafter.

Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- ***Invested in capital assets, net of related debt*** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- ***Restricted net assets*** - Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- ***Unrestricted net assets*** - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Governmental Fund Financial Statements

For the fiscal year ended June 30, 2011 the Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- ***Non-spendable*** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- ***Restricted*** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- ***Committed*** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- ***Assigned*** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- ***Unassigned*** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council is the highest level of decision making authority and a meeting of the Town Council is required to establish, modify or rescind a fund balance commitment.
- b) For assigned fund balance: The Town Administrator and Treasurer are authorized to assign amounts to a purpose and with authorization given by the Town Council.
- c) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when an expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

Revenues, Expenditures and Expenses

Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred. Revenues and expenses of proprietary fund types are recognized using the full accrual basis of accounting. Revenue is recognized when earned and expenses as incurred.

Program Revenues and Expenses

In the statement of activities specific revenues are allocated to program expenses due to their direct relationships. Collections for licenses, fees, tickets and fines are among some of the revenue sources that are program revenues. Indirect expenses are not allocated to functions in the statement of activities.

Property Taxes

The Town is permitted by state law to levy property taxes. Current tax collections for the Town were 97.2% of the total December 31, 2009 levy. The Town's fiscal 2011 property taxes were levied in July of 2010 on assessed valuation as of December 31, 2009.

Upon levy, taxes are billed quarterly and are due on July 1, October 1, January 1, and April 1. Failure to mail payments by due dates will result in lien on taxpayer's property. Assessed values are established by Tax Assessor's Office and are currently calculated at 100% of assessed value for real estate and 100% of market value for motor vehicles.

Vacation, Sick Leave, and Other Compensated Absences

Town employees are granted vacation and sick leave in varying amounts. Upon retirement, termination, or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay. The amount recorded is that unused days earned at the current rate of pay. For governmental activities the general fund is used to satisfy this liability as it becomes due, while the transfer station enterprise fund accounts for all settlement of business-type liabilities for compensated absences.

TOWN OF TIVERTON, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

Town employees are entitled to vacation based on length of service. Up to two weeks of vacation days are allowed to carry over to succeeding years. Town employees are entitled to 1.5 sick days per month worked. Sick leave may be accumulated up to a maximum of 200 days. Upon retirement, employees have a vested interest in 50% of their accumulated sick time. Those employees hired after July 1, 1999 have a vested interest in 25% of their accumulated sick time.

Police employees are entitled to vacation based on length of service. Vacation days must be used within the fiscal year. Police are entitled to 1.25 days of sick leave for each month in which they work a minimum number of hours. Sick leave may be accumulated to a maximum of 245 days. Upon retirement, police have a vested interest in 100% of their first 100 days and 50% for each day in excess of 100 days.

Fire employees are entitled to vacation based on length of service. Vacation days must be used within the fiscal year. Fire employees are entitled to 2.5 days of sick leave each full month worked. Sick leave may be accumulated to a maximum of 272 days. Upon retirement, Fire employees have a vested interest of 20% of their first 30 days and 50% for each day in excess of 30 days.

Public works employees are entitled to vacation based on length of service. Up to 25 days of vacation are allowed to carry over to succeeding years. Public works employees are entitled to 1.25 sick days per month worked. Sick leave is not cumulative.

Inter-fund Transactions

Inter-fund transactions except advances are accounted for as transfers. Nonrecurring or non-routine transfers of equity between funds are considered equity transfers. All other inter-fund transactions are treated as operating transfers.

NOTE 2 – BUDGETARY DATA AND BUDGETARY COMPLIANCE

The Town adopts an annual budget for the General Fund at the annual Financial Town meeting based on recommendations from the Budget Committee. The Town Council with some restrictions can transfer budgeted amounts within and among departments and to authorize emergency expenditures. Any revisions that alter total expenditures must be approved by the taxpayers by a vote at the Financial Town Meeting. Management cannot make any transfers without prior Council approval. There were no supplemental budgetary appropriations during the fiscal year. The School Unrestricted Fund is subject to an annual operating budget approved by the School Committee and adopted in total by the Town Council as part of General Fund budget. The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund and Special Revenue - School Unrestricted Fund's annual operating budgets are prepared on the budgetary basis of accounting which is not in conformity with Generally Accepted Accounting Principles. The budget to actual presentation in required supplementary information is reflected on the budgetary basis. The only Special Revenue fund that has a legally enacted budget is the School Unrestricted Fund. Therefore, the budget and actual figures presented for Special Revenue Funds in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual only include this fund.

**TOWN OF TIVERTON, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011**

NOTE 2 – BUDGETARY DATA AND BUDGETARY COMPLIANCE (continued)

The Town does not budget for the combined Special Revenue Funds or the Capital Project Funds, since budgetary control is maintained on an individual basis. Since grant periods may differ from the Town's fiscal year, a comparison of budgetary information may not be meaningful and has not been presented in the accompanying financial statements.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$67,364,524 based on the December 31, 2009 assessment. As of June 30, 2011 the Town's debt is under the debt limit by \$30,254,524. In addition to the bonding authority granted under §45-12-2 of the RI General Laws, the Town of Tiverton can authorize bond issues pursuant to a special act of the RI General Assembly. Bond issues authorized by a special act of the General Assembly are normally not subject to any legal debt limit, but are subject to financial constraints such as the Town's ability and willingness to service the bonded debt. See page 107 in the statistical section for computation of the legal debt margin.

NOTE 4 - DEFICIT FUND BALANCE OR RETAINED EARNINGS OF INDIVIDUAL FUNDS

Deficit fund balances existed in the following funds:

Stormwater Management	Special Revenue	\$ 18,000 *
Tree Planting	Special Revenue	387 *
Water Quality Improvement	Special Revenue	22,115 *
Dingy Dock	Special Revenue	321 *
RI Leap Agreement	Special Revenue	6,151 *
Keep Tiverton Beautiful	Special Revenue	3,140 *
Energy Grant	Special Revenue	1,907 **
Student Equity	School Restricted	56,229 *
Old Stone Bridge	Capital Project	6,367 *

* The deficit balance will require a future administration plan to fund this deficit.

** The deficit balance will be eliminated by future reimbursements from either the State or the Federal Government.

TOWN OF TIVERTON, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE 5 – CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments: Investment of all idle funds is made through national banks or trust companies, providing that the financial conditions and integrity of these institution or institutions are verifiable and can be monitored. The investment of funds are in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2011, all of the Town's bank balance of \$13,437,991 was fully insured within each financial institution or through a third party collateralization agreement.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

NOTE 6 – PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation.

All property taxes for fund statement purposes are recognized in compliance with NCGA Interpretation-3 (Revenue Recognition - Property Taxes), which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. The Town does not use an allowance method for bad debts. It directly writes off receivables as they become un-collectible as per state law.

NOTE 7 – PROPERTY, PLANT & EQUIPMENT

The Town defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). NOTE 8 DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

"Total fund balances" of the Towns' governmental funds (\$9,401,982) differs from "net assets" of governmental activities (\$5,702,847) reported in the statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

NOTE 9. DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES

The "net change in the fund balances" for governmental funds (\$950,802) differs from the "change in net assets" for governmental activities \$(738,916) reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences are illustrated below with explanations on page 40.

NOTE 9. DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES (continued)

(1) Reductions in deferred revenues that provide current financial resources to governmental funds are not reported as revenues in the statement of activities. State funded public service corporation tax revenues that are not accrued for in the governmental funds are reported as revenues in the statement of activities.

Deferred revenue property tax
\$ (16,286)

Interest expense in the statement of activities differs from the amount reported in the governmental funds for two reasons. Accrued interest was reduced on the calculation for bonds payable and bond issuance cost are reported as expenditures in governmental funds while in the government-wide financial statements they are capitalized and amortized over the life of the bond.

Accrued interest
\$ 19,009

(2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

(3) Bond and capital lease proceeds provide current financial resources to governmental funds but the issuance of bonds and obtaining capital lease financing increases long-term liabilities in the statement of net assets. Repayments of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the town as a whole, however, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.

NOTE 12 – LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The Town accounts for its closure and post-closure care costs under GASB Statement No. 18. This Statement is based on the October 9, 1991, U.S. Environmental Protection Agency (EPA) rule, “Solid Waste Disposal Facility Criteria”, which establishes closure requirements for all municipal solid waste landfills (MSWLF’s) that receive solid waste after October 9, 1991. The EPA rule also establishes thirty-year post-closure care requirements for MSWLF’s that accept solid waste after October 9, 1993. The effect of this EPA rule and similar state laws or regulations is to obligate MSWLF owners and operators to perform certain closing functions and post-closure monitoring and maintenance functions as a condition for the right to operate the MSWLF in the current period.

State and Federal laws and regulations require the Town to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after its closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the Town reports a portion of these closure and post-closure care costs as an operating expense in each period based on budget appropriations. The \$4,651,127 reported as landfill closure and post-closure care liability at June 30, 2011, represents the cumulative amount reported to date. These amounts are based on what it would cost to perform all closure and post-closure care in 2008. The Town expects to close the landfill in 2014. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The town intends to finance these closure and post-closure costs over the remaining life of the landfill through general fund contributions. As of June 30, 2011, the Town has accumulated \$4,015,699 in the Landfill Closure Capital Project Fund for this purpose.

NOTE 13 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. Litigation

Bay Street Contamination

In 2005, over 100 residents sued the Fall River Gas Company, in four different lawsuits in federal court in Rhode Island and Massachusetts and in Rhode Island Superior Court. These cases have all been consolidated in the United States District Court for the District of Rhode Island.

The Town of Tiverton was brought in as a Third Party Defendant by Southern Union. In September of 2009 the Town of Tiverton received \$550,000 to be used to remediate roadways and right of ways with contamination levels exceeding industrial standards. RIDEM is requiring this remediation be completed within two years unless it will be done as part of a town infrastructure upgrade. In that event, the remediation must be completed within five years. The estimated cost to clean the areas of town property that have contamination exceeding industrial levels is \$485,000. The \$550,000 settlement money is in a separate account and will be used for the remediation.

Some of the streets that were to be remediated with the \$485,000 also contain mercury contamination that was discovered several years ago and partially cleaned up by the EPA. The Town is currently involved in

conversations with DEM and the EPA seeking their renewed assistance as the EPA did not completely clean up the mercury. In the event that the EPA does not step in, the funds set aside by the Town from the settlement should be approximately sufficient to pay for the combined gas waste and mercury remediation under those streets. Also, during the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel they do not anticipate any of them to have a material financial impact or at this time their legal counsel has been unable to assess a liability, if any, on the part of the Town.

Tiverton School Committee v. Town of Tiverton

This case involves a dispute as to whether the Town must "indemnify" the School Committee for a shortfall in expected State Aid in the 2009-2010 fiscal year, in the amount of approximately \$367,000; and approximately \$243,092 in the 2010-2011 fiscal year; and also whether approximately \$110,000 in out-of-district tuition from Fall River, Ma. should be deposited to the General Fund accounts, or retained by the School Committee for its own discretionary use. The case was brought in December 2010 by the School Committee to the Commissioner of Education, and then subsequently appealed by the Town to the Board of Regents. The Board of Regents issued its ruling, affirming the Commissioner of Education. This is essentially a split decision, with the Town prevailing on the Fall River Ma. tuition issue, but losing on the issue of "indemnifying" the schools for their loss of state aid. The issue squarely joined, with the Board of Regents using similar language that the Town must "hold harmless" the School Department for loss of state aid.

On November 22, 2011, the Town filed a Writ of Cert Petition with the Rhode Island Supreme Court. The Town firmly believes that it should prevail in this case, however a loss could create further incalculable liabilities in future years for losses in state or federal aid to the School Department.

B. Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2011 were audited in connection with the accompanying financial statements under the Single Audit Concept and the auditor's reports thereon are presented in the Single Audit Report. Management believes that the amounts, if any, of expenditures, which may be disallowed, will not be material to the financial position of the Town.

NOTE 15 - PENSION PLANS

A. Employees' Retirement System of the State of Rhode Island (ERS)

All Town of Tiverton, Rhode Island certified school personnel participate in the Employees' Retirement System of the State of Rhode Island ("System"), a cost-sharing multiple-employer public employee retirement system. The System issues a publicly available financial report that includes financial statements and required supplementary information. The financial report may be obtained by writing to Employees Retirement System of Rhode Island, 40 Fountain Street, Providence, Rhode Island, 02903-1854, by calling (401) 222-2203 or by accessing their website at www.ersri.org.

Plan Year: A twelve-month period ending June 30th.

Administration: ERSRI is administered by the State of Rhode Island Retirement Board. However, the State Treasurer is responsible for the investment of the trust assets, including the establishment of the asset allocation policy.

Type of Plan: ERSRI is a qualified governmental defined benefit retirement plan. Separate contribution rates are determined for state employees and for teachers. For Governmental Accounting Standards Board purposes, it is a cost-sharing multiple employer plan.

Eligibility: Most Rhode Island state employees and certified public school teachers participate in ERSRI. Certain employees of the Airport Corporation, the Economic Development Corporation, and the Narragansett Bay Commission participate in the plan as though they were state employees. State police officers, state judges, and teachers and administrators in the public colleges and universities are covered by their own separate systems, and are therefore excluded. Certain elected state officials are excluded unless they make an election to join ERSRI. Superintendents, principals, business agents and other administrators participate as teachers. Non-certified public school employees, such as teacher's aides, janitors, secretaries, and bus drivers, cannot participate in ERSRI, although they may be covered by the Municipal Employees Retirement System (MERS) or a separate plan maintained by the town or city. Eligible employees become members as of their date of employment.

Employee Contributions: State Employees generally contribute 8.75% of their salary per year. Teachers contribute 9.50% per year. The state —picks up" the members' contributions for its employees under the provisions of Internal Revenue Code (IRC) Section 414(h). At their option, the city or town employing a Teacher may also pick up their members' contributions.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

NOTE 15 - PENSION PLANS (continued)

A. Employees' Retirement System of the State of Rhode Island (ERS)

Employer Contributions: For Teachers, the state contributes 40% of the employer contribution rate and the city, town or other local employer contributes the remaining 60%. (This basic 40-60 split is further adjusted, since the State bears the cost of repaying certain amounts taken from the trust in the early 1990's.) Contributions determined in a given actuarial valuation go into effect two years after the actuarial valuation. In fiscal years beginning after June 30, 2005, if the State's contribution on behalf of State Employees decreases, the State shall appropriate an additional amount to the retirement trust. Such amount shall be equal to 20% of any decrease in expected contributions.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods, such as time spent teaching at a public school in another state, by making an additional contribution to purchase the additional service and those costs will be determined at full actuarial value, except for purchases of military service and redeposits of previously refunded contributions. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC): For members eligible to retire as of September 30, 2009, their Final Average Compensation (FAC) will be based on the highest three consecutive annual salaries. For members not eligible to retire as of September 30, 2009, their FAC will be based on the highest five consecutive years of salary. Monthly benefits are based on one-twelfth of this amount.

Retirement Benefits

Eligibility:

- (i) Grandfathered Schedule A members—members with at least 10 years of contributory service at June 30, 2005 and eligible for retirement at September 30, 2009—are eligible to retire on or after age 60 if they have credit for 10 years of service, or at any age if they have credit for 28 years of service.
- (ii) Correctional officers who have reached age 50 and have credit for 20 years of service as of September 30, 2009 are eligible to retire and are grandfathered.
- (iii) Nurses (RNs) employed by MHRH who have reached age 50 with 25 years of service by September 30, 2009 are eligible to retire and are grandfathered.
- (iv) Schedule B members—members with less than 10 years of contributory service as of June 30, 2005 and members hired on or after that date—are eligible for retirement on or after age 65 if they have credit for 10 years of service, or on or after age 62 if they have credit for 29 years of service. In addition, a member who attains age 62 with at least 20 years of service credit may retire with an actuarially reduced retirement benefit. The reduction is based on the difference between 65 and the member's age at retirement.

A. Employees' Retirement System of the State of Rhode Island (ERS)

(v) Correctional officers who are hired after September 30, 2009 become eligible to retire when they have reach age 55 and have credit for 25 years of service.

(vi) Nurses (RNs) employed by MHRH who are hired after September 30, 2009 become eligible when they have reach age 55 and have credit for 25 years of service.

(vii) Schedule A members who are not grandfathered, i.e., members who had at least 10 years of creditable service at June 30, 2005 but who were not eligible to retire on September 30, 2009, will be eligible for retirement at an individually determined age. This age is the result of interpolating between the retirement age under the rules applicable to grandfathered employees in (i) above and the retirement age applicable to members hired after September 30, 2009 in (iv) above. The interpolation is based on service as of Sept. 30, 2009 divided by projected service at the retirement age under (i) above.

(viii) Correctional officers hired on or before September 30, 2009 who are not eligible for retirement at that date will have an individually determined retirement age. This age is the result of interpolating between the retirement age for grandfathered employees in (ii) above and the retirement age applicable to members hired after September 30, 2009 in (v) above.

(ix) Similarly, MHRH nurses (RNs) hired on or before September 30, 2009 who are not eligible to retire at that date will have an individually determined retirement age. This age is the result of interpolating between the retirement age for grandfathered employees in (iii) above and the retirement age applicable to members hired after September 30, 2009 in (vi) above.

Monthly Benefit: The retirement benefit is a percentage of the member's monthly FAC. This percentage is a function of the member's service as described below.

(i) For grandfathered Schedule A members (members with at least 10 years of contributory service at June 30, 2005 and eligible for retirement at September 30, 2009), benefits are based under this schedule (Schedule A):

For Service In:	Years	Benefit Percentage Earned
The first 10 years of service	1 – 10	1.7% per year
The next 10 years of service	11 – 20	1.9% per year
The next 14 years of service	21 – 34	3.0% per year
The next 1 year of service	35	2.0% per year

The maximum benefit is 80% of FAC.

A. Employees' Retirement System of the State of Rhode Island (ERS)

(ii) For Schedule B members (members with less than 10 years of contributory service as of June 30, 2005) and for all future hires, benefits are based on the following schedule (Schedule B):

For Service In:	Years	Benefit Percentage Earned
The first 10 years of service	1 – 10	1.6% per year
The next 10 years of service	11 – 20	1.8% per year
The next 5 years of service	21 – 25	2.0% per year
The next 5 years of service	26 – 30	2.25% per year
The next 7 years of service	31 – 37	2.50% per year
The next 1 year of service	38	2.25% per year

The maximum benefit is 75% of FAC.

(iii) For Schedule A members who are not grandfathered, i.e., members who had at least 10 years of creditable service at June 30, 2005 but who were not eligible to retire on September 30, 2009, benefits are based on Schedule A (under (i) above) for service through September 30, 2009 and on Schedule B (under (ii) above) for service after September 30, 2009. The maximum benefit is 80% of FAC.

(iv) MHRH nurses receive a benefit determined under the appropriate formula above.

(v) Correctional Officers receive a benefit computed under a different formula:

For Service In:	Years	Benefit Percentage Earned
The first 30 years of service	1 – 30	2.0% per year
The next 1 year of service	31	6.0% per year
The next 1 year of service	32	5.0% per year
The next 1 year of service	33	4.0% per year
The next 1 year of service	34	3.0% per year
The next 14 years of service	35	2.0% per year

Retirement Benefits

Payment Form: Benefits are paid as a monthly life annuity. Optional forms of payment are available.

Death benefit: After retirement, death benefits are based on the form of annuity elected. If no option is elected, i.e., if payments are made as a life annuity, there is a minimum death benefit equal to the sum of the member's contributions without interest, less the sum of the monthly benefit payments made before the member's death. In addition, a lump-sum death benefit is payable upon the death of any retired member, regardless of option elected. This lump sum is equal to a percentage of the lump-sum death benefit that was available to the member at the time of retirement. The percentage is 100% in the first year of retirement, 75% in the second year, 50% in the third year, and 25% in the fourth and subsequent years of retirement. However, in no event will the lump sum death benefit be less than \$4,000.

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years plus 40% of contributions assessed to employers on payroll not reimbursable through Federal programs. This resulted in contribution rates paid by the State on behalf of the School Department of 8.18% of non-federally reimbursable payrolls totaling \$1,043,137 for the fiscal year ended June 30, 2011. These on-behalf payments of fringe benefits have been recognized as revenues and expenditures in the fiscal period. The School Department does not have any investments or related party investment with the State Plan.

Required Contributions:

<u>Years Ending June 30</u>	<u>Town's Portion of Annual Required Contributions</u>	<u>Percentage Contributed</u>
2009	\$ 1,499,666	100%
2010	\$ 1,080,135	100%
2011	\$ 1,409,417	100%

In accordance with GASB 27, "Accounting for Pensions by State and Local Governmental Employers," the Town has determined that there are no assets or liabilities relating to the funding requirements of the plan.

Actuarial Methods and Assumptions

The information presented was determined as part of the actuarial valuation. Additional information as of the last actuarial valuations follows:

Valuation date	June 30, 2010
Actuarial cost method	Entry Age Actuarial Cost Method
Amortization method	Level Percent of Payroll – Closed 30-yr period
Remaining amortization period	18 Years
Asset valuation method	5 Year Smoothed Market
Actuarial assumptions:	
Investment rate of return	7.50%, Compounded Annually
Projected salary increases	3.00-7.00%
Cost-of-living adjustments	2.75%
Inflation Rate	2.75% Annually

Post Retirement Benefit Increases: For grandfathered Schedule A members, i.e., members who were retired or eligible to retire by Sept. 30, 2009, the post-retirement benefit increases set by statute to be 3.00%. They are not a function of the actual increases in the cost of living. Other members receive a compound increase each year equal to the increase in the CPI, but limited to 3.00%. This limit lowers the average expected increase below the inflation assumption of 2.75%. The assumed average increase received for this group of employees is 2.35%. The indexed COLA limitation (\$35,000 for 2010) is also assumed to grow at 2.35% per annum.

B. Municipal Employees' Retirement System of the State of Rhode Island

The Town of Tiverton, Rhode Island participates in the Municipal Employees' Retirement System of the State of Rhode Island ("System"), an agent multiple employer defined benefit plan. The System includes a normal plan for general employees and both a normal and optional plan for police personnel. All full-time Town and non-certified School Department general employees participate in the System. The System issues a publicly available financial report that includes financial statements and required supplementary information for the Town. The financial report may be obtained by writing to Employees Retirement System of Rhode Island, 40 Fountain Street, Providence, Rhode Island, 02903-1854, by calling (401) 222-2203 or by accessing their website at www.ersri.org.

NOTE 15 - PENSION PLANS (continued)

B. Municipal Employees' Retirement System of the State of Rhode Island

Eligibility: General employees, police officers and firefighters employed by electing municipalities participate in MERS. Teachers and administrators are covered by the separate Employees' Retirement System of Rhode Island, but other school employees may be covered by MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be classified as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be classified as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a separate unit from the general employees, with separate contribution rates applicable.

Employee Contributions: General employees contribute 6.00% of their salary per year, and police officers and firefighters contribute 7.00%. In addition, if the municipality has elected one of the optional cost-of-living provisions, an additional member contribution of 1.00% of salary is required. If a municipality elects the optional 20-year retirement provision for its police officers and/or its firefighters, an additional contribution of 1.00% of salary will be required from these members. The municipality, at its election, may choose to "pick up" the members' contributions for its employees under the provisions of Internal Revenue Code (IRC) Section 414(h).

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Employer Contributions: Each participating unit's contribution rate is determined actuarially. Contributions determined in a given actuarial valuation go into effect two years after the actuarial valuation.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

Final Average Compensation (FAC): The average of the member's highest three consecutive annual salaries. Monthly benefits are based on one-twelfth of this amount.

Retirement Benefits

Eligibility: General employees are eligible for retirement on or after age 58 if they have credit for 10 or more years of service, or at any age if they have credit for at least 30 years of service. Members designated as police officers or firefighters may retire at or after age 55 with credit for at least 10 years of service, or at any age with credit for 25 or more years of service. Members may retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elects to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member may retire at any age with 20 or more years of service.

Monthly Benefit: 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum). If the optional 20-year retirement provisions are adopted by the municipality and the member has attained 20 years of service, the benefit is 2.50% of the member's monthly FAC for each year of service, up to 30 years (75% of FAC maximum). If a police officer or firefighter not covered by the 20-year retirement provision retires before age 55 with at least 20, but less than 25, years of service, benefits are reduced 0.5% per month that the member's age at retirement is less than 55.

Payment Form: Benefits are paid as a monthly life annuity. Optional forms of payment are available; see below.

Death benefit: After retirement, death benefits are based on the form of annuity elected. If no option is elected, i.e., if payments are made as a life annuity, there is a minimum death benefit equal to the sum of the member's contributions without interest, less the sum of the monthly benefit payments made before the member's death. In addition, a lump-sum death benefit is payable upon the death of any retired member, regardless of option elected. This lump sum is equal to a percentage of the lump-sum death benefit that was available to the member at the time of retirement. The percentage is 100% in the first year of retirement, 75% in the second year, 50% in the third year, and 25% in the fourth and subsequent years of retirement. C. Police Pension Plan

Plan Description

The Policemen's Pension Plan of the Town of Tiverton (the Plan) is a contributory, single-employer, defined benefit plan. Bank of America is the trustee of the Plan's investment funds. All funds remain in custody of Bank of America which is also responsible for maintenance of primary accounting records.

NOTE 15 - PENSION PLANS (continued)

C. Police Pension Plan

Administration of the Plan is the responsibility of the Town Administrator. Accordingly, he reviews the records of the Plan, prepares and accumulates the actuarial data, and prepares periodic reports for submission to the Town Council. The costs of administering the Plan are paid by the Plan. All members of the Police Department of the Town of Tiverton are covered by this Plan.

Plan Provisions

The Plan provides retirement as well as death and disability benefits. Participants in the Plan are eligible for retirement on the earlier of their 55th birthday or upon completion of 20 or more years of service. The normal retirement benefit is equal to 2.5% of average compensation multiplies by the years of credited service for the first 20 years plus an additional 2% for years in excess of 20 years, subject to a maximum of 75% of average compensation.

Participants are eligible for disability benefits after 7 years of service or immediately if the disability results from performance of duties. The benefit is 66.67% of average compensation or 50% if disability is due to non-occupational causes.

Death benefits will be paid to the beneficiary in the amount of \$400 for each year of service, subject to a minimum of \$2,000 and a maximum of \$8,000. After retirement, this benefit will be reduced by 25% per year but not less than \$2,000.

Summary of Significant Accounting Policies

Contributions

Employees in the Police Pension Fund are required to contribute 10% of their pay. The Town contribution is based on the amount determined by the actuarial valuation.

Basis of Accounting

The Police Pension Fund's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value.

Annual Pension Cost and Net Pension Obligations

The Town's net pension obligation for fiscal year ended 2011 to the Police Pension Fund is as follows:

Annual required contribution	\$ 1,067,884
Interest on net pension obligation	85,359
Adjustment to annual required contribution	<u>(72,510)</u>
Annual pension cost	1,080,733
Contributions made	<u>452,407</u>
Increase (decrease) in net pension obligation	628,326
Net pension obligation beginning of year	<u>1,219,411</u>
Net pension obligation end of year	<u>\$1,847,737</u>

For 2011, the Town's annual pension cost was \$1,080,733 for the Police Pension Fund and actual contributions were \$452,407 based on the actuarial calculation. The required contribution was determined as part of the July 1, 2010 actuarial valuation using the entry age normal cost method with frozen initial liability. Significant actuarial assumptions included (a) net investment return of 7 percent compounded annually, (b) projected salary increases of 5 percent compounded annually, (c) mortality rates based on the RP 2000 Mortality Table for males and females, and (d) a retirement age of 55, or completion of service requirements, if later. The adjusted market value method has been used to determine the actuarial value of asset. Under this method, fluctuations in market values of assets are smoothed out by utilizing a five-year average of realized and unrealized investment gains and losses to calculate the actuarial value of assets.

NOTE 16 - RISK MANAGEMENT

The Town of Tiverton is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Inter-local Risk Management Trust, Inc.) that provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement that outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism, which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust, retains internally for payment from the pooled contributions of its Members. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. There were no reductions in the insurance coverage during the fiscal year up and through the report date.

There are several lawsuits pending against the Town. The Town Solicitor estimates that judgment against the Town from such other litigation not covered by insurance would not be material in relation to the Town's financial position.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2011

The accompanying Statement of Revenues, Expenditures / Expenses (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2011 is presented below:

	General <u>Fund</u>	School <u>Unrestricted</u>
Excess (deficiency) of revenues and other sources over (under) expenditures and other uses (budgetary basis)	\$ 763,642	\$ 13,908

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable President
and Members of the Town Council
Town of Tiverton, Rhode Island

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Tiverton, Rhode Island, as of and for the year fiscal ended June 30, 2011, and have issued our report thereon dated December 22, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Town of Tiverton, Rhode Island is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matter

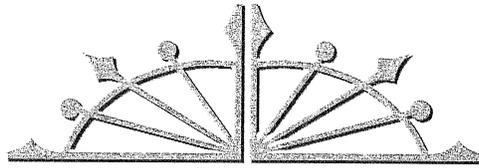

As part of obtaining reasonable assurance about whether Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those

provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the Town in a separate letter dated December 22, 2011.

This report is intended solely for the information and use of management, the Town Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Tiverton, Rhode Island

Compliance

We have audited the Town of Tiverton, Rhode Island, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2011. The Town of Tiverton's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Town of Tiverton's management. Our responsibility is to express an opinion on the Town of Tiverton's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town's compliance with those requirements.

In our opinion, the Town, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the Town is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Town's internal control over compliance with the requirements that could have a direct and material effect on a major federal program

to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Town Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
