Chief Thomas Blakey

Dear Alzheimer's Alert Participant,

The purpose of the Tiverton Alzheimer's Alert Program is to ensure the safety of participants who are suffering from Alzheimer's disease and related Dementia. By registering a loved one at the Tiverton Police Department, information such as recent photo and vital statistics will be on file. If a participant is found wandering without identification, the officer will be able to refer to the information on file and return this individual to his / her home in a timely, non-threatening fashion.

When a Police Officer is dispatched to the address of a participant, vital information will be given to the officer by our control center operator.

Please return the completed application to the Tiverton Police Department and to the attention of the Alzheimer's Alert program coordinator at the above address.

Sincerely,

Thomas Blakey
Chief of Police
